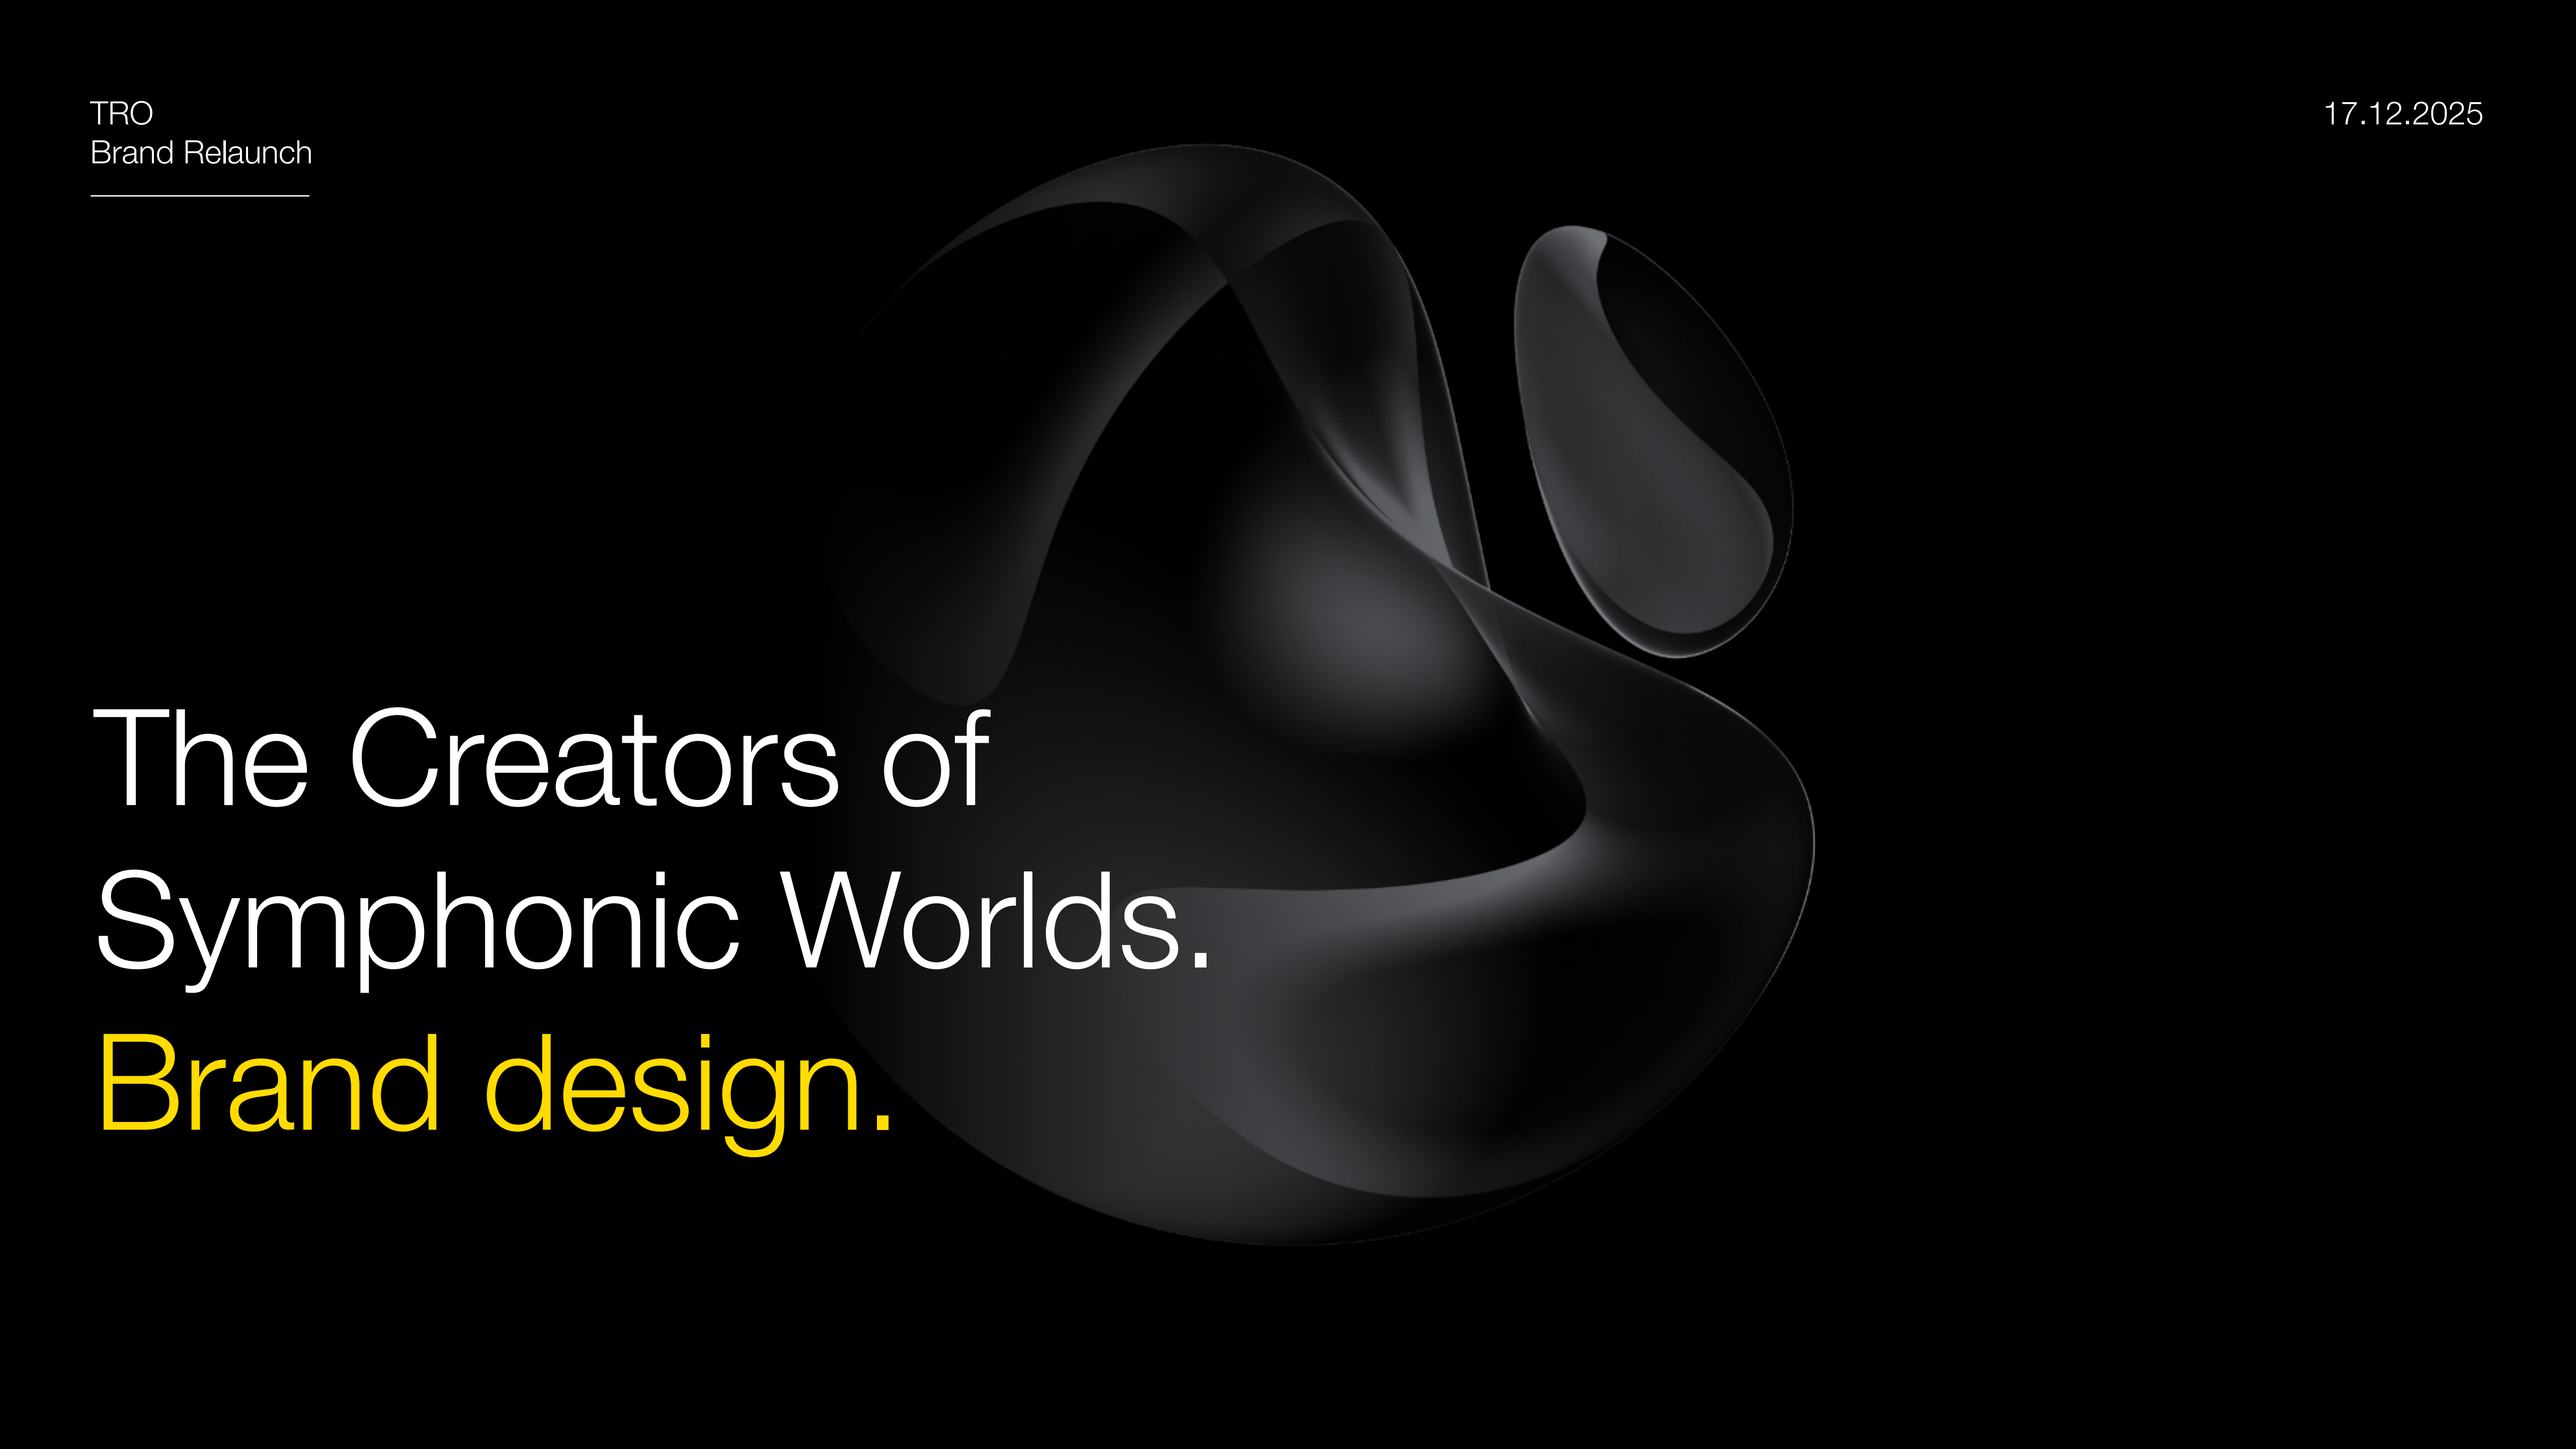
Brand Relaunch

17.12.2025



The Creators of Symphonic Worlds.
Brand design.

Logo Study 3 Concept:

Let sound live. Now.

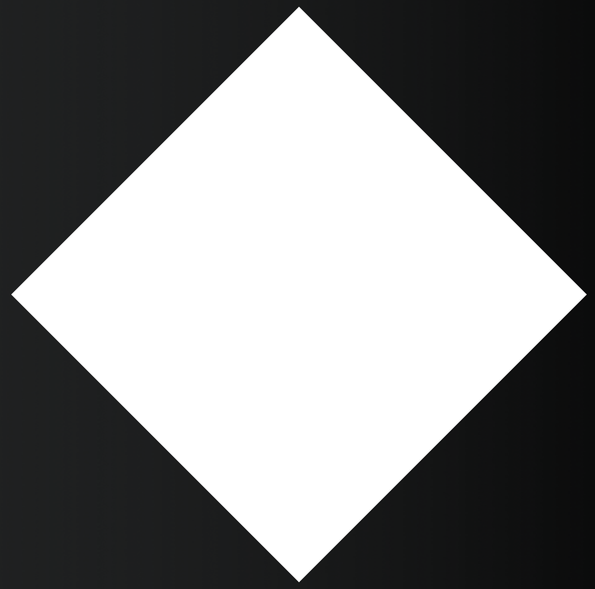
We are the Creators of Symphonic Worlds —reshaping and enriching the worlds of our clients and their customers through sound.

Distinctive sound, alive by design, created to enliven every brand touchpoint.
Sound that surrounds, connects, and creates new meaning.

Our logo therefore becomes more than a logo.
It becomes a switch — a moment to turn sound on. So you can experience it.

Let sound free. Always. Let sound live. Now.

From danger…



...to harmony

Design Concept:

Symphonic Worlds.
Bold. Vibrant. For real.

We are the Creators of Symphonic Worlds — because the sound we create is more than what you can hear.

It fuels the worlds of our clients with energy, brings coherence, and fills them with life, emotion, and meaning.
Sound that is real — a reality so powerful and distinctive, … we make it visible — so you can experience it.

A symphonic world you can truly feel.
Symphonic Worlds. For real.
